New Technique for Endoscopic Diagnosis in Biomedical Engineering

Message from the Guest Editor

This cutting-edge research article explores a new technique for endoscopic diagnosis, which promises to revolutionize the field of gastroenterology. Endoscopy is a critical tool in the diagnosis and treatment of various gastrointestinal disorders, but current techniques are limited by factors such as accuracy, invasiveness, and patient discomfort. The novel approach proposed in this study aims to overcome these limitations by providing a more accurate, less invasive, and patient-friendly method for diagnosing gastrointestinal conditions. By utilizing state-of-the-art technology and methodologies, this technique offers immense potential for improving patient outcomes and advancing the field of endoscopic diagnosis.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
