

Special Issue

Dynamic Insights: Unveiling the Biomechanics of Sport Through Motion Analysis

Message from the Guest Editors

You are invited to contribute a research article or a comprehensive review for the Special Issue entitled "Dynamic Insights: Unveiling the Biomechanics of Sport through Motion Analysis," located in the Biomechanics and Sports Medicine Section of the MDPI journal *Bioengineering*. The biomechanical analysis of motion in sports is of paramount importance to stakeholders in the field. The resulting improvements in performance and athlete development serve as strong, measurable indicators of the outcomes achievable with sports motion analysis. The analysis of human movement will be a key element of successful submissions. We hope to include motion assessments of sport-related activities, such as sports rehabilitation and injury prevention. We also welcome applications of novel biomechanical approaches, including techniques and technologies such as video analysis, 3D motion capture systems, wearable technologies, infrared imaging, and medical imaging.

Guest Editors

Dr. Ukadike Chris Ugbohue

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
