

Special Issue

Dental Implant Reconstruction and Biomechanical Evaluation

Message from the Guest Editor

This Special Issue is aimed at highlighting the trends regarding the progress made in the numerical and experimental characterization of materials and devices used for dental implant reconstruction. Regarding dental implant reconstruction, this Special Issue will demonstrate how our current knowledge is essential for excellent clinical quality, including implant stability through mechanical, in vitro or in vivo tests. These tests require the use of all current approaches, including experimental mechanics, numerical simulation with the finite element method and the latest image-based techniques.

Guest Editor

Dr. Bongju Kim

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
