

## Special Issue

# Extracellular Matrix in Musculoskeletal Regeneration

### Message from the Guest Editors

This Special Issue on “Extracellular Matrix in Musculoskeletal Regeneration” is open for original papers and reviews investigating extracellular matrix biology in normal, diseased, or injured bone, cartilage, or skeletal muscle. Topics and themes for this collection will include but are not limited to the following:

- Tissue-specific extracellular matrix scaffolds used to regenerate bone, cartilage, or skeletal muscle;
- Extracellular matrix-mediated stem cell differentiation in musculoskeletal tissue;
- Biophysical properties of extracellular matrix and its effect on musculoskeletal stem cells;
- Extracellular vesicles derived from bone, cartilage, or muscle to drive stem cell fate;
- Synthetic and natural derived biomimetic extracellular matrix scaffolds used in bone, cartilage, or skeletal muscle regeneration;
- Influence of bone, cartilage, or skeletal muscle crosstalk signaling on extracellular matrix and regeneration;
- Microfluidic devices used to identify extracellular matrix-related changes due to tissue crosstalk.

### Guest Editors

Dr. Michael J. McClure

Department of Biomedical Engineering, Virginia Commonwealth University, Richmond, VA 843068, USA

Dr. Joshua Cohen

Department of Biomedical Engineering, Virginia Commonwealth University, Richmond, VA 23284, USA

### Deadline for manuscript submissions

closed (31 March 2022)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
