Biomaterials in Dental Applications

Message from the Guest Editors

In recent decades, nanoscience and nanotechnology have become particularly important technologies in global medicine, representing the core of recent advances in dentistry. Indeed, one of the goals of modern dentistry is to perform minimally invasive procedures, and excellent results are achieved thanks to the application of new biomaterials with optimal chemo-mechanical characteristics based on implemented features of bioengineering; this enables simplification and improvement of the quality of procedures, resulting in predictable and satisfactory results for both the dentist and the patient. Traumatic injuries and external harmful agents jeopardize tooth integrity. Therefore, this Special Issue will focus on new biomaterials and techniques in all disciplines of Dentistry and their capability to improve dental health. We welcome submissions of original research articles, reviews and new dental techniques.

Guest Editors

Dr. Vincenzo Tosco

Dr. Riccardo Monterubbianesi

Dr. Giovanna Orsini

Dr. Alessandra Amato

Deadline for manuscript submissions

closed (31 May 2024)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
