

Special Issue

Advances in Physical Therapy and Rehabilitation, 2nd Edition

Message from the Guest Editors

This Special Issue is the second edition of “Advances in Physical Therapy and Rehabilitation”

(https://www.mdpi.com/journal/bioengineering/special_issues/6KL66MOLED).

In the past few years, the field of physical therapy and rehabilitation has benefited from close collaboration with engineers to enhance patients' outcomes and quality of life. From 3D printing for adaptive devices and hearing aids to exoskeletons and virtual reality, bioengineers have provided important support to the rehabilitation field in general.

This Special Issue will focus on current research advancing any collaborations between rehabilitation and engineering, from a biological perspective, via basic and applied sciences research, to environmental and mechanical factors that play key roles in the recovery of our patients. We welcome manuscripts covering a broad overview of bioengineering research topics to enhance the physical therapy and rehabilitation field. These topics might be related to basic or applied sciences, such as biomechanics, physiology, motor control, or any other factor associated with bioengineering in rehabilitation.

Guest Editors

Dr. Alvaro N. Gurovich

Doctor of Physical Therapy Program, College of Health Sciences, The University of Texas at El Paso, El Paso, TX 79968, USA

Dr. Shashwati Geed

Department of Physical Therapy and Movement Sciences, The University of Texas at El Paso, El Paso, TX 79968, USA

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
