

## Special Issue

# Emerging Applications and Insights for Life and Biomaterial Sciences Through Correlated Volume and Electron Microscopy Advances

### Message from the Guest Editors

The rapidly evolving fields of volume electron and analytical electron microscopy hold transformative potential for life sciences, biomedical sciences, and biomaterials. They continue to provide novel insights that have advanced and extended our understanding of these fields. This Special Issue aims to foster a deeper understanding of how volume electron and analytical electron microscopy can effectively enhance and transform the fields of life sciences, biomedical sciences, and biomaterials sciences. This Special Issue will bring together imaging scientists to share their latest findings, methodologies, applications, and insights in volume electron and analytical electron microscopy by highlighting new technologies, cutting-edge research, and their applications in life, biomedical, and biomaterial sciences.

---

### Guest Editors

Prof. Dr. Eduardo Rosa-Molinari

Department of Cell Biology & Physiology, and Neuroscience,  
Washington University Center for Cellular Imaging, Washington  
University School of Medicine, St Louis, MO, USA

Dr. Mark Sanders

University Imaging Centers, University of Minnesota—Twin Cities,  
Minneapolis, MN, USA

---

### Deadline for manuscript submissions

31 July 2026

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
