

Special Issue

Recent Advances in Microsurgery, Breast Reconstruction & Tissue Engineering

Message from the Guest Editors

We are pleased to launch a new Special Issue of the renowned journal *Bioengineering*, titled 'Recent Advances in Microsurgery, Breast Reconstruction & Tissue Engineering'. The field of reconstructive microsurgery, particularly breast surgery, has experienced an unprecedented growth in recent years, thereby making it imperative to incorporate innovative biotechnologies to further enhance its efficiency, standardization, and promote better quality of care for the patients. Therefore, this Special Issue aims to collate papers that focus on the recent advancements and innovations in this field, emphasizing the need for further collaboration between the fields of plastic surgery and industrial engineering, as well as highlighting the current gaps and limitations and providing implications for future research. Some potential topics include the integration of biotechnology in microsurgery, breast reconstruction surgery, limb preservation surgery, lymphedema, and nerve surgery.

Guest Editors

Prof. Dr. Justin Michael Sacks

Division of Plastic and Reconstructive Surgery, Department of Surgery,
Washington University School of Medicine, St. Louis, MO 63110, USA

Dr. Xiaowei Li

Division of Plastic and Reconstructive Surgery, Department of Surgery,
Washington University School of Medicine, St. Louis, MO 63110, USA

Deadline for manuscript submissions

closed (30 September 2024)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
