

Joint Special Issue

Bioengineering—Selected Papers from NanoBio&Med 2018

Message from the Guest Editor

Emerging nanobiotechnologies can offer solutions to the current and future challenges in medicine. By covering topics from regenerative medicine, tissue engineering, drug delivery, bionanofabrication, and microfluidics, this Special Issue aims to provide an update on the trends in biomedical technologies for effective diagnosis, prevention, and treatment of disease. This Special Issue is cooperating with the NanoBio&Med 2018 conference (<http://www.nanobiomedconf.com/NBM18/index.php>). All speakers and registered participants at this conference are invited to submit a manuscript for publication. Prof. Liang Luo
Dr. Antonio Correia

Deadline for manuscript submissions

closed (28 February 2019)
