

Special Issue

Biofabrication

Message from the Guest Editor

The use of biomolecules, sub-cellular fragments, whole cells, biomaterials and/or other bioactive components that serve as construction elements in the fabrication of biological models, medical diagnostic or therapeutic devices or products. Also, the use of additive and subtractive technologies in the fabrication of functional, engineered components based on the use of (or containing) biomolecules, sub-cellular fragments, whole cells, biomaterials and/or other bioactive components. We look forward to receiving your contributions to these cutting edge issues.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
