

Special Issue

Biosensors in Biomedical Applications

Message from the Guest Editor

Recent studies on nanomaterials have led to tremendous opportunities in biosensing applications for early disease diagnosis, point-of-care (POC) testing, and wearable health monitoring. Various organic/inorganic, nano/micromaterials can be tailored to the monitoring complex biological systems with improved sensitivity, limit-of-detection, specificity, reliability, and long-term stability. This Special Issue is dedicated to covering the most recent results and emerging concepts in addressing the current biosensing challenges. Topics may include, but are not limited to, the following:

- Advances in nanostructured materials for biosensing applications;
- Bioelectronic devices for healthcare applications;
- High-throughput biosensing platforms;
- Multiplexed sensing systems for POC or wearable applications.

Guest Editor

Dr. Zhaoli Gao

Department of Biomedical Engineering, The Chinese University of Hong Kong, Hong Kong, China

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
