

Special Issue

3D Cell Culture Model and System Imaging for in vitro Disease Modeling

Message from the Guest Editors

This Special Issue on 3D cell culture model and system imaging for in vitro disease modeling will present original research papers and comprehensive reviews dealing with cutting-edge experimental methodologies for in vitro disease modeling. Topics of interest to this Special Issue include, but are not limited to, the following:

- In vitro engineered complex tissues to monitor disease progression and interventions
- Image-based analysis using a combination of in vitro engineered complex tissues and cellular reporters
- Compounds evaluation in 3D cell culture models with image analysis
- Multi-organ in vitro 3D culture

Guest Editors

Dr. Bramasta Nugraha

Stem Cell Biology, Novo Nordisk A/S, 2880 Bagsvaerd, Denmark

Dr. Jeremy Teo

Laboratory for Immuno Bioengineering Research and Applications, Division of Engineering, New York University Abu Dhabi, Abu Dhabi 129188, United Arab Emirates

Deadline for manuscript submissions

closed (31 March 2022)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
