

Special Issue

Advanced Drug Delivery Systems and Devices

Message from the Guest Editors

Drug delivery systems and devices constitute an important component of modern diagnostics and therapy and have been applied successfully in achieving targeted therapy and/or controlled drug release. The convergence of engineering, medicine, and pharmacy has led to the emergence of a number of innovative drug delivery systems and devices and profoundly influenced the application of drugs in clinical practice to improve drug therapy outcomes. This Special Issue invites review and research articles to cover a broad range of drug delivery topics such as design, fabrication, in vitro and in vivo studies, as well as latest advances in drug delivery systems and device technologies and applications.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
