

## Special Issue

# Hydrogels for Biomedical Applications

### Message from the Guest Editor

Since the first biological application of hydrogels appeared in 1960, this kind of biomaterial has become increasingly popular. Particularly in recent years, hydrogels have been used in a great number of biomedical applications, such as ophthalmology, tissue engineering and drug delivery. This Special Issue is dedicated to overviewing the groundbreaking research related to hydrogels and their most relevant applications in biomedicine, and aims to highlight the current and future state of biomedical hydrogel research. We hope that the Issue will bring new insights to the scientific community in this ever-expanding research field.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
