

Special Issue

Strategies for the Efficient Development of Microbial Bioprocesses

Message from the Guest Editors

The aim of this Special Issue is to discuss the efficiency of the whole product and process life cycle, from the raw materials and early screening stages to industrial scale production and final application. This Special Issue is a joint project of the journals *Microorganisms* and *Bioengineering* and focuses on contributions at the 6th BioProScale Symposium and 7th BioProScale Symposium, which were organized as a digital event from 29–31 March 2021 and 28–31 March 2022, but further contributions are also invited on the following subjects: Industrial-scale bioprocessing, process analytical technologies, high-throughput bioprocessing and automation, and bioprocesses for a circular economy. The papers related to microbiology are welcome for *Microorganisms*, related to engineering and other fields are welcome for *Bioengineering*. The article processing charge (APC) for publication in *Bioengineering* is 2000 CHF (Swiss Francs).

Guest Editors

Prof. Dr. Peter Neubauer

Department of Bioprocess Engineering, Technische Universität Berlin, Ackerstraße 76, ACK24, D-13355 Berlin, Germany

Prof. Dr. Christoph Herwig

Lisalis GmbH, Jenbachgasse 73-2, 1130 Vienna, Austria

Deadline for manuscript submissions

closed (15 February 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
