Special Issue

Mathematical Modeling of Aortic Diseases

Message from the Guest Editors

This Special Issue of *Bioengineering* titled "Mathematical Modeling of Aortic Diseases" will focus on original research and comprehensive review articles addressing the advanced mathematical modeling and analysis of the experimental investigation of complex cases of aortic diseases. Topics of interest for this Special Issue include, but are not limited to:

- Blood flow modeling in the pathological aorta;
- Novel multifidelity approaches to model blood flow in the aorta and large arteries;
- Blood-vessel interaction;
- Uncertainty quantification in image-based patientspecific simulations;
- Aortic valve modeling;
- Remodeling of the aorta;
- Novel mathematical analysis of advanced imaging techniques in the aorta;
- Blood coagulation modeling in the aorta and large arteries;
- Simulation of various aortic surgical procedures.

Guest Editors

Dr. Hwa Liang Leo

Department of Biomedical Engineering, National University of Singapore, Singapore 117583, Singapore

Dr. Hamed Keramati

Department of Biomedical Engineering and Imaging Sciences, King's College London, London, UK

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
