

## Special Issue

# Quantification of Biological and Mechanical Changes Due to Radiation Exposure

### Message from the Guest Editors

The overarching aim of this Special Issue is to enhance our understanding of mechanical and biochemical cues that bring changes in the living systems due to radiation exposure. There is a significant need to address the mechanical changes in tissues and cells that are subjected to (i) radiation exposure; and (ii) radiotherapeutic approaches at low- and high-doses. Biomechanical alteration of non-targeted tissue irradiation has been recently highlighted in literature. Yet the mechanistic regime of radiation-induced biomechanical changes in the human body is not fully understood. The goal of this Special Issue on the “Quantification of Biological and Mechanical Changes Due to Radiation Exposure” is to highlight original research papers and comprehensive reviews, dealing with micro-to-macro level changes in human physiology from a mechanics point of view.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
