

## Special Issue

# Biological Drugs in the World

### Message from the Guest Editor

The purpose of this Special Issue is to involve and bring together researchers from all five continents (Asia, Africa, America, Australia, and Europe) who are interested in biological drugs from a chemical, pharmacological, technological and non-chemical point of view, neglecting natural and non-herbal medicines that have attracted the attention of many researchers in recent years. This Special Issue welcomes the submission of either original research manuscripts or reviews of the scientific literature, concerning biological drugs in different clinical and experimental settings of disease.

## About the Journal

### Message from the Editor-in-Chief

*Biologics* (ISSN 2673-8449) is an international, multidisciplinary, peerreviewed, and scientific open access, open source journal that encourages authors to submit high-quality original research papers, reviews, and communications in all areas of biologics derived from both novel and established biotechnologies. We invite you to contribute original researches, review articles, essays or short reports for consideration and publication in the journal. Rapid turnaround time and full open access offer the opportunity to make research results immediately available to scientific communities and the general public.
