Deadline for manuscript
submissions:

30 September 2023

Message from the Guest Editor

Dear Colleagues,

The exposome can be defined as the measure of all exposures of an individual in a lifetime, and how these relate to health. Therefore, the topic of immune health and development, from an exposome perspective, is a focus of increasing interest.

This Special Issue aims to collect state-of-the-art primary research studies and review articles from international experts and leading groups on roles of the exposome in immune evolution and disease mechanisms.

Prof. Dr. Sigrun Lange

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biology*) / CiteScore - Q2 (*General Agricultural and Biological Sciences*)
