submissions:

30 September 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue delves into the critical role of animal models in understanding and advancing research on gastrointestinal diseases. Gastrointestinal disorders encompass a wide array of conditions that affect the digestive system, from inflammatory bowel diseases to colorectal cancer. Animal models play a pivotal role in unraveling disease mechanisms, testing therapeutic interventions, and offering insights into human gastrointestinal health. This Special Issue explores the diverse animal models employed, their contributions to understanding disease pathology, and the translation of findings to applications. It covers the latest research methodologies, emerging trends, and the significance of animal models in advancing treatments and diagnostics for gastrointestinal disorders.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in
Molecular and Integrative
Biosciences, Faculty of Biological
and Environmental Sciences,
University of Helsinki, P.O. Box
56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology
Institute, University of Valencia
and CSIC, 46980 Valencia, Spain

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
