Message from the Guest Editor

In this Special Issue entitled “Metabolic Myopathies—From Diagnosis to Therapy”, submission of original scientific reports, review articles, case reports, and perspective pieces on metabolic myopathies is invited. This issue will cover the diverse diagnostic and therapeutic aspects of metabolic myopathies including different forms of glycogen storage diseases (GSDs), fatty acid metabolism disorders, and mitochondriopathies.

There is no doubt that this Special Issue will be an incredible resource for scientists working within the field of metabolic myopathies as well as for life science researchers in general.

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biology*) / CiteScore - Q1 (*General Agricultural and Biological Sciences*)
