## Prevention and Diagnosis of Gynaecological Cancers

Guest Editors:

**Dr. Maria Paraskevaïdi**

**Prof. Dr. Evangelos  
Paraskevaidis**

**Prof. Dr. Kassio Lima**

**Prof. Dr. Maria Kyrgiou**

**Dr. Ilkka Kalliala**

Deadline for manuscript  
submissions:  
**closed (31 March 2023)**

### Message from the Guest Editors

The aim of this Special Issue is to shed light on novel approaches and techniques that can be used in a series of clinical applications to improve the diagnosis and outcomes of patients affected by female cancers, making a difference with long-lasting impact in women's health. We are especially interested in studies involving women who have developed or are at risk of developing vulval, vaginal, cervical, endometrial or ovarian cancer.

We welcome the submission of original research articles, short communications, and reviews focusing on current methodologies for the detection and better understanding of female cancers. Translational research with a focus on point-of-care diagnostics is also encouraged. This Special Issue will provide an overview of the current knowledge on this topic and promote innovative techniques for the screening, diagnosis and treatment of gynaecological malignancies.

## Editors-in-Chief

### **Prof. Dr. Jukka Finne**

Research Programme in  
Molecular and Integrative  
Biosciences, Faculty of Biological  
and Environmental Sciences,  
University of Helsinki, P.O. Box  
56, FI-00014 Helsinki, Finland

### **Prof. Dr. Andrés Moya**

Integrative Systems Biology  
Institute, University of Valencia  
and CSIC, 46980 Valencia, Spain

## Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
