

Special Issue

Paper Collection: Understanding Immune Systems

Message from the Guest Editors

This Special Issue aims to collect the state-of-the-art primary research studies, reports, and review articles from international experts and diverse leading groups in the immunology research field. The immune system has multifaceted roles in health and disease, including in developmental processes, during the lifespan, in tissue homeostasis, in evolutionary biology, in host–pathogen interactions and infection, and as a double-edged sword in inflammatory and chronic pathologies. Understanding Immune Systems invites research contributions that further the current understanding in immunology, including from *in vitro* and *in vivo* human and comparative animal models.

Guest Editors

Prof. Dr. Sigrun Lange

Pathobiology and Extracellular Vesicles Research Group, School of Life Sciences, University of Westminster, London W1W 6UW, UK

Prof. Dr. Jameel M. Inal

1. School of Life and Medical Sciences, Biosciences Research Group, Extracellular Vesicle Research Unit, University of Hertfordshire, College Lane, Hatfield AL10 9AB, UK

2. School of Human Sciences, Cell Communication in Disease Pathology, London Metropolitan University, 166–220 Holloway Road, London N7 8DB, UK

Deadline for manuscript submissions

30 June 2026

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
