

# Special Issue

## Aquatic Economic Animal Breeding and Healthy Farming

### Message from the Guest Editors

This Special Issue on “Aquatic Economic Animal Breeding and Healthy Farming” covers the economic analysis of aquaculture, animal farming technology, and healthy farming concepts and practices, aiming to promote the sustainable development of aquaculture and animal farming, improve product quality and economic benefits, and focus attention on ecological environment protection and animal welfare. Through the reading and communication of these professional journals, practitioners can continuously acquire new knowledge, improve professional quality, and jointly promote the prosperity and progress of the industry.

## About the Journal

### Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
