

## Special Issue

# Nature's Pharmacy: Ethnobotanical Approaches to Medicinal Plant Research for the Discovery and Development of Potential Phytochemicals

### Message from the Guest Editors

We welcome the submission of original research and review articles that explore the vast therapeutic potential of medicinal plants rooted in traditional knowledge systems, contributions that highlight the biological activity, mechanisms of action, and functional roles of plant-derived compounds in biological systems, including studies on in vitro and in vivo models that are relevant to basic biological processes. Particular emphasis will be placed on studies that enhance our understanding of how plant extracts and isolated compounds interact with molecular pathways, regulate gene expression, or modulate cellular behavior. The Special Issue also aims to present interdisciplinary approaches that encompass molecular biology, cell biology, systems biology, toxicology, and computational modeling (e.g., molecular docking, network pharmacology) as tools to elucidate the biological basis of plant-based activities.

---

### Guest Editors

Prof. Dr. Supachoke Mangmool  
Dr. Chuda Chittasupho  
Dr. Sirivan Athikomkulchai

## About the Journal

### Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
