Applications of Proteomics in Biological Fluids and Biopsies

Message from the Guest Editor

Samples from biological fluids and biopsies are very important for understanding the biology and pathophysiology of diseases. Proteomics is a tool that we can use for certain "disease-specific protein molecules" that could be molecular targets for new drug designs or provide molecular markers for the early diagnosis of diseases. The journal *Biology* is launching a Special Issue entitled "Applications of Proteomics in Biological Fluids and Biopsies", which promotes basic research, translation, and clinical applications in the application of proteomics in samples including urine, blood, other biological fluids, and biopsies.

Guest Editor

Prof. Dr. Youhe Gao

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
