

Special Issue

Aquatic Animal Nutrition and Feed

Message from the Guest Editor

Aquatic animals require diverse nutrients, including protein, fat, carbohydrates, vitamins, and minerals, to ensure optimal growth and development. Feed quality is an important factor that determines the growth rate, yield, immunity, and disease resistance of aquatic animals. Therefore, the field of aquatic animal nutrition and feed science plays a pivotal role in promoting the healthy development of the aquaculture industry. This Special Issue aims to compile the latest research on aquatic animals' nutritional requirements, metabolic processes, and regulatory mechanisms during their growth and reproduction stages. Additionally, our Special Issue intends to highlight the latest advancements in the development of aquatic animal feeds. We look forward to receiving your contributions.

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
