Special Issue

Evolution, Genetics, and Conservation of Wildlife Respond to Environmental Changes

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include, but not are limited to, the following: (1) rapid evolutionary response mechanisms in wildlife under environmental change; (2) the application of conservation genetics and genomics; (3) eco-evolutionary dynamics modeling; (4) integration of genomic tools with ecological models; and (5) biodiversity conservation and resilient ecosystem management under environmental change. In addition, we encourage scholars to submit other articles related to the above-mentioned themes. It is with great enthusiasm that we invite you to contribute to the development of the academic subject in this field.

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
