

Special Issue

Reproductive Management of Goats and Sheep

Message from the Guest Editor

This Special Issue focuses on the reproductive management of goats and sheep, highlighting the latest research and advancements in this field. With a specific emphasis on the breeding, physiology, and production aspects, this Special Issue aims to contribute to the knowledge and practices related to the reproductive processes in these animals. Additionally, this Special Issue addresses animal welfare concerns and explores sustainable agricultural practices to enhance the overall productivity and well-being of goats and sheep. The journal encourages the submission of all research papers related to goats and sheep as long as they contribute knowledge to the reproduction and management of animal systems. The journal particularly encourages papers that demonstrate interactions between different methods to illustrate the comprehensive nature of biological systems.

"Reproductive Management of Goats and Sheep" is a must-read publication for all scientists, stakeholders, and decision-makers interested in the fields of biomedical science, animal science, veterinary science, and environmental science. We look forward to your submission.

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
