

Special Issue

Young Investigators in Biochemistry and Molecular Biology

Message from the Guest Editor

In this Special Issue, we will feature early-career researchers in the field of biochemistry and molecular biology. The senior authors of the contributions should be a) the first or last author in addition to the corresponding author and b) either within 10 years of completing their PhD (or equivalent) or an assistant professor/on tenure track. We invite submissions from **all sub-disciplines of biochemistry and molecular biology**. Articles submitted for this Special Issue should meet all the standard requirements of individual *Biology* articles (regarding quality, novelty, and significance) and be relevant to a broad international and interdisciplinary readership. **Authors featured in this Special Issue will have the opportunity to be nominated for next year's Young Investigator Award.** They will receive a cash prize and subsequent free publication of an article in *Biology*. In addition, a few Article Processing Charge waivers are available for the best scholars who contribute to this Special Issue; waiver requests, accompanied by the manuscript title, author list and abstract, should be sent to biology@mdpi.com.

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
