

## Special Issue

# Deficiencies of Behavioral or Phenotypes Characteristics Based on Environments, Genetics, Disease and Another Factors

### Message from the Guest Editor

The scope of this Special Issue comprehensively encapsulates a wide range of fields, such as medical diagnosis, evolution, phylogeny, taxonomy, ecology, behavioral science, genetics, molecular biology, pharmacology, and anthropology. In addition, the Special Issue aims to incorporate cutting-edge technologies in life science, reflecting the trend to consistently develop the research approach in this field by drawing on diverse perspectives and an in-depth understanding of the research problem. This approach to research will be reflected in the subsequent results, which combine a series of studies on behavioral characteristics, character (phenotype) developments, gene function., etc. The Special Issue will focus on developing a full understanding of research motivations and questions and will draw on the behavioral characteristics of living organisms and any different experimental data from biology to enhance the analysis of relationships based on many biological methods.

### Guest Editor

Dr. Tomoyoshi Komiyama

Department of Clinical Pharmacology, Tokai University School of Medicine, Isehara 259-1193, Kanagawa, Japan

### Deadline for manuscript submissions

closed (31 March 2022)

## About the Journal

### Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

---

### Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
