

Special Issue

Essential Trace Elements in the Human Metabolism

Message from the Guest Editor

This Special Issue will serve to highlight how trace elements, despite their low levels in the human body, are absolutely essential for metabolism. The proposed subject is transversal and of great interest in several areas, e.g., medicine and other areas of health, quality of life, and food production. Therefore, developments on the topic of "*Essential Trace Elements in the Human Metabolism*" have consequences in different fields. This Special Issue aims to gather contributions from relevant researchers (including their co-authors) across the world and from different backgrounds, hence promoting richer and more diverse information to be distributed to readers. **Papers** based on experimental work or reviews are welcome to be submitted to this Special Issue.

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
