10th Anniversary of *Biology*— Innate Immune System: Insights from Zebrafish Models

Message from the Guest Editors

The year 2021 marks the 10th anniversary of *Biology*, a peer-reviewed open access journal on biological sciences. *Biology* has published more than 1200 papers from more than 8300 authors. We are grateful to every author, reviewer, and academic editor whose support has made us where we are today. This Special Issue aims to bring new research focused on the studies of the innate immune system using zebrafish models, as well as to consolidate and disseminate the state-of-the-art of the field via review articles. We encourage submissions of articles on topics that directly or indirectly affect the zebrafish as a preclinical model for immune diseases, such as tissue damage, inflammation and its resolution, and new tools and advances in genetic and imaging techniques that may translate into new insights on our knowledge of the vertebrate immune system.

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
