Mechanisms of Human Motion Generation

Message from the Guest Editor

“Mechanisms of Human Motion Generation” are not only important for our life from a practical perspective, but also represent a fascinating area of science. The mystery and beauty of human motion generation have attracted the interest of uncountable scientists, engineers, artists, and philosophers for over two thousand years.

In this Special Issue titled “Mechanisms of Human Motion Generation”, contributions of the latest findings in this area are solicited. The scope includes, but is not limited to, such areas as biomechanics, motor control, ergonomics, rehabilitation, and sports science. Contributions of articles of high practical utility and scientific merit are welcome. We hope that this Special Issue will provide an opportunity to share the state-of-the-art findings in this fascinating area.

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
