

Special Issue

Prevention and Diagnosis of Gynaecological Cancers

Message from the Guest Editors

The aim of this Special Issue is to shed light on novel approaches and techniques that can be used in a series of clinical applications to improve the diagnosis and outcomes of patients affected by female cancers, making a difference with long-lasting impact in women's health. We are especially interested in studies involving women who have developed or are at risk of developing vulval, vaginal, cervical, endometrial or ovarian cancer. We welcome the submission of original research articles, short communications, and reviews focusing on current methodologies for the detection and better understanding of female cancers. Translational research with a focus on point-of-care diagnostics is also encouraged. This Special Issue will provide an overview of the current knowledge on this topic and promote innovative techniques for the screening, diagnosis and treatment of gynaecological malignancies.

Guest Editors

Dr. Maria Paraskevaïdi

Prof. Dr. Evangelos Paraskevaidis

Prof. Dr. Kassio Lima

Prof. Dr. Maria Kyrgiou

Dr. Ilkka Kalliala

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
