Post-COVID-19 Era: Infectious Diseases from One Health and Global Health Perspectives

Message from the Guest Editors

With the spread of the coronavirus disease 2019 (COVID-19) pandemic in the past few years, there has been an increasing concern about infectious diseases due to the ongoing adverse health effects of COVID-19 on the global population. This Special Issue aims to highlight empirical studies concerning the mechanisms of infectious diseases and outline the need for behavior and policy changes at all levels in the post-COVID-19 era. This Special Issue will include reviews and research articles on the "Post-COVID-19 Era: Infectious Diseases from One Health and Global Health Perspectives". We are pleased to invite researchers to contribute to this Special Issue. Research areas may include (but are not limited to) the following: infectious diseases; COVID-19; One Health; global health; public health, ecosystems; modelling (e.g., structural equation modelling); and big data. Please send us an abstract before submission to ensure that your work falls within the scope of this Special Issue. We look forward to receiving your contributions.

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
