

Special Issue

Biological Nitrogen Removal in the Multi-Omics Era: Coupling Anammox with Microbial-Mineral Synergy

Message from the Guest Editors

We welcome submissions addressing (but not limited to) the following research areas:

- Mechanistic exploration of microbial nitrogen transformation;
- Applications of autotrophic nitrogen removal and anammox processes;
- Engineering optimization of aerobic granular sludge systems;
- Discovery of novel nitrogen-cycling microbial resources;
- Multi-omics analysis of nitrogen metabolism processes;
- Microbial-mineral interactions in nitrogen removal;
- Bioengineering strategies for system optimization;
- Practical applications and control strategies in wastewater treatment engineering;
- Detection, removal, and water quality assurance technologies for emerging pollutants.

Submit your paper here:

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
