

Special Issue

Hybrid Methods for Structural Biology and Drug Design: A Memorial Issue for Dr. Chris G. Dealwis

Message from the Guest Editor

We are pleased to invite you to contribute an article to a special memorial issue that will serve to celebrate Chris's scientific life and work. This Special Issue aims to highlight all manner of biochemical and biophysical methods that are used to elucidate the macromolecular structure and/or evaluate protein targets for drug design efforts. This appreciation and blend of disparate methods to answer important biological questions reflect Chris's successful scientific career. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: Structural Biology, Medicinal Chemistry, Pharmacology, Molecular Biology, Biochemistry, Biophysical Chemistry, and methods developed for any of the areas listed here. Additionally, any reflections on Chris and his work may be included in your article if appropriate. Thank you for your consideration, and I look forward to receiving your contributions. Sincerely

Guest Editor

Dr. Brad C. Bennett

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
