

## Special Issue

# Ecological Regulation of Forest and Grassland Pests

### Message from the Guest Editors

Forest and grassland are the most important nature component, playing an important role in balancing the whole ecosystem. Forest and grassland pests cause huge losses can affect the whole ecosystem; however, the situation might worsen with the application of chemical pesticides to control them. Therefore, controlling forest and grassland pests by means of ecological regulation is expected to maintain a healthy ecosystem. The scope of this Special Issue includes the ecological regulation of forest and grassland pests via sustainable IPM, chemical ecology, biological control, biotechnique, biodiversity and pest control, forest management, AI-based control, and other modern approaches. The topics of pure chemical pesticides or chemically based IPM have been excluded. We look forward to receiving your contributions.

### Guest Editors

Dr. Dun Wang

College of Plant Protection, Northwest A&F University, Yangling, China

Dr. Liangjian Qu

Ecology and Nature Conservation Institute, Chinese Academy of Forestry, Beijing, China

### Deadline for manuscript submissions

31 July 2026

## About the Journal

### Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
