

Special Issue

Mitochondrial Dysfunction and Aging

Message from the Guest Editor

Biology is calling for submissions to our Special Issue on “Mitochondrial Dysfunction and Aging”. The mitochondria not only work in energy production but also play important roles in reactive oxygen species (ROS and RNS) production, calcium handling, metabolism, cell signaling, etc. In this Special Issue, we welcome submissions of original research, reviews, and mini-reviews. Subtopics of interests include, but are not limited to, the following:

- 1) Mitochondrial DNA damage, reactive species (ROS and RNS) production, dynamics, and metabolism disorders in aging;
- 2) Mitochondrial dysfunction in various diseases in aging, including cardiovascular diseases, neurodegenerative diseases, Alzheimer’s diseases and related dementia, etc.;
- 3) Mitochondria and immune dysfunction in aging;
- 4) Mitochondrial dysfunction in stem cell aging;
- 5) Mitochondria and skeletal muscle cell dysfunction in aging;
- 6) Epigenetic regulation and potential targets in mitochondria in aging;
- 7) Other mitochondrial dysfunction in aging research.

Guest Editor

Dr. Huiliang Zhang

Department of Medical Genetics and Molecular Biochemistry Lewis Katz School of Medicine, Temple University, Philadelphia, PA 19140, USA

Deadline for manuscript submissions

30 November 2025

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
