

## Special Issue

# Plant Perception, Behavior, and Environmental Response Mechanisms

### Message from the Guest Editors

Plants exhibit remarkable dynamism, engaging in continuous perception, signaling, and adaptive behavior. Far from being passive, plants integrate multiple sources of information to regulate their growth, development, and interaction with their surroundings.

Advances in plant science have revealed a broad spectrum of intra- and inter-communication modalities. These processes are observed across a range of spatial and temporal scales, from the molecular to the behavioral level. This underscores the notion that plants function as active organisms in intricate networks of interaction. This Special Issue seeks to highlight the multifaceted nature of plant communication and behavior, ranging from intracellular pathways to ecosystem dynamics. We welcome contributions encompassing a variety of perspectives, including biological, chemical, physiological, behavioral, and theoretical approaches, that investigate how plants detect and process environmental stimuli, establish interactions with other organisms, and adapt through structural, physiological, and behavioral strategies, thereby illuminating the integrative systems that sustain plant life.

### Guest Editors

Dr. Silvia Guerra

Department of General Psychology, University of Padova, Via Venezia 8, 35131 Padova, Italy

Dr. Bianca Bonato

Department of General Psychology, University of Padova, Via Venezia 8, 35131 Padova, Italy

### Deadline for manuscript submissions

15 July 2026

## About the Journal

### Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

### Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
