

Special Issue

The Impact of Climate Change on Ecosystems and Human Health

Message from the Guest Editors

Global climate change is progressing at an increasingly frightful speed and intensity. There are growing concerns about One Health—which includes both people and the ecosystem—as global climate change and other environment factors may impact on public health via the local ecosystem. This Special Issue is focused on both the mechanisms and empirical studies as regards the impact of climate change on public health and discovering ways to influence behavior and policies at all levels. This Special Issue will include reviews and research articles on "The Impact of Climate Change on Human Health and Ecosystems". We welcome authors to contribute to this Special Issue. We request that you please send us an abstract before submission in order for us to ensure that your work falls within the scope of this Special Issue.

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
