

## Special Issue

# The Impact of Extreme Sport on Body Functions

### Message from the Guest Editor

Extreme sport, e.g., ultramarathons, or enduring exercise sessions, e.g., training camps, might significantly influence essential body functions. This Special Issue invites original research papers that address the following aspects of the field: (a) hemorheology, (b) blood volume changes/dehydration, (c) muscle function, (d) gastrointestinal problems, (e) concepts of psychological stamina, (f) nutritional conditions, (g) energy metabolism and (h) rehydration/regeneration concepts.

### Guest Editor

Dr. Marijke Grau

Institute of Cardiovascular Research and Sports Medicine, Molecular and Cellular Sports Medicine, German Sport University Cologne, 50933 Cologne, Germany

### Deadline for manuscript submissions

closed (31 July 2022)

## About the Journal

### Message from the Editor-in-Chief

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.2 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2026).
