

## Special Issue

# Ecological Characteristics and Genetic Population Structure of the Invasive Freshwater Jellyfish *Craspedacusta sowerbii* Species Complex

### Message from the Guest Editors

We are planning a Special Issue in Biology regarding the invasive freshwater jellyfish *Craspedacusta sowerbii*. The focus of the Special Issue will be on the ecological characteristics and population genetics of *Craspedacusta* sp., which are increasingly observed in freshwater systems globally. The Special Issue will bring together different research fields such as the experimental and observational limnology, population genetics and ecology of invasive species. This should help us to gain a more complete overview of the recent state of the art and integrative insights into the highly dynamic processes underlying the worldwide spread of this species. To date, publications about *Craspedacusta* have been rare and often published in very different and specialized journals. This Issue will supplement existing literature by providing an integrated picture of recent developments including modern experimental and molecular approaches.

### Guest Editors

Dr. Sabine Gießler

Faculty of Biology, Ludwig-Maximilians-University Munich, 82152 Planegg, Germany

Prof. Dr. Herwig Stibor

Faculty of Biology, Ludwig-Maximilians-University Munich, 82152 Planegg, Germany

### Deadline for manuscript submissions

closed (31 May 2024)

## About the Journal

### Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

---

### Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
