

Special Issue

Recent Advances in Molecular Plant Pathology

Message from the Guest Editors

Molecular plant pathology studies the mechanisms of the interaction between plants and pathogens at the molecular level, and is formed by the intersection of plant pathology and biochemistry, molecular biology and molecular genetics. This Special Issue welcomes a wide variety of articles on the molecular mechanism of pathogenicity and its pathogenic variants, plant disease resistance, the strategies of plant disease resistance, molecular breeding, fungal viruses and virocontrol of fungal diseases.

Guest Editors

Prof. Dr. Cheng-Gui Han

Ministry of Agriculture and Rural Affairs Key Laboratory of Pest Monitoring and Green Management, College of Plant Protection, China Agricultural University, Beijing 100193, China

Prof. Dr. Liying Sun

College of Plant Protection, Northwest A&F University, Xianyang 712100, China

Deadline for manuscript submissions

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
