

# Special Issue

## Linking Soil Biology to Agro-Ecosystems Functional Sustainability

### Message from the Guest Editors

*This Special Issue is open to studies on soil communities, including bacteria, fungi, mesofauna and pollinator insects. We seek articles that apply metagenomic and enzymatic techniques highlighting microbial function; interactions between activities of soil microbes, mesofauna and soil biogeochemistry; soil biodiversity influence on nutrient cycling; GHG formation/release; etc. Attention will be dedicated to adaptation of soil communities to stress caused by pollution, drought, pesticide residues, excessive compaction, acidification, to human impacts –including global changes– that typically affect the sustainability of farming operations, and to recommendations of optimised soil management. The issue is open to case studies from anywhere in the World.*

### Guest Editors

Dr. Nic Pacini

Department of Environmental Engineering, University of Calabria, 87036 Arcavacata di Rende, Italy

Dr. Edoardo Puglisi

Department for Sustainable Food Process, Università Cattolica del Sacro Cuore, 20123 Milan, Italy

### Deadline for manuscript submissions

closed (1 May 2021)

## About the Journal

### Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

### Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
