New Trends in Plastic Surgery: From Substitutive Surgery to the Regenerative Surgery

Message from the Guest Editor

For this Special Issue, we welcome submissions exploring cutting-edge research and recent advances in wound healing, hair science, breast reconstruction/augmentation, face rejuvenation and buttock augmentation. Studies comprising new strategies based on autologous and/or mini-invasive procedures are also related to regenerative strategies such as PRP, HFSCs, H-AT-d-FSCs, AD-MSCs, MN-T fat grafting, biomaterials and the development of new approaches are welcome, as are comprehensive review/systematic review papers.
