Deadline for manuscript  
submissions:

**closed (30 November 2023)**

### Message from the Guest Editors

For many neurological diseases, the pathophysiological mechanisms are not clear, and there is a lack of neuroimaging biomarkers. Over the past two decades, neuroimaging studies such as MRI and PET have provided a lot of information for neurological disorders. Especially noninvasive functional MRI and diffusion tensor imaging have achieved great progress in these disorders, such as dementia, Parkinson's disease, depression, headache, epilepsy, etc. These studies are still the areas of focus. Therefore, the aim of the Special Issue is to focus on neuroimaging studies (especially noninvasive functional MRI and diffusion tensor imaging) on neurological diseases to help neurologists to better understand the trends in these fields.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPlus / SciFinder*, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
