Message from the Guest Editors

This Special Issue in "Genetics of Chronic Disease" aims to collect original articles and reviews on genetic and environmental factors that influence risk and promote/protect the development of chronic diseases. We encourage authors to submit their work related to chronic disorders caused either by single or multiple genes or specific interactions with environmental factors analyzed for genome-wide genotyping and whole genome, exome, exosome, or clinical diagnosis using advanced omics technologies (genomics, transcriptomics, proteomics, or metabolomics). This issue also addresses articles focused on the development of new strategies for early diagnosis and interventions to reduce the deleterious effects of the presence of specific genetic or environmental factors in different chronic diseases.

Deadline for manuscript
submissions:

closed (31 July 2024)

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

Journal Rank: JCR - Q2 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))
