Deadline for manuscript  
submissions:

**closed (30 September 2022)**

### Message from the Guest Editor

Hearing loss (HL) is the most common sensory impairment worldwide. It is characterized by a high clinical/genetic heterogeneity with ~123 genes reported so far and more than 400 HL syndromes described. Genetic factors account for 50–60% of all the cases; however, despite the efforts made in recent years, many patients still lack a final molecular diagnosis.

This Special Issue aims to collect reviews and original articles on recent investigations of the molecular basis of hearing loss, both syndromic and non-syndromic, as well as age-related hearing loss. All manuscripts, both experimental and theoretical contributions, should highlight:

1. The molecular mechanisms at the level of single genes/proteins or their networks;
2. The benefit from the vast amounts of information that can be garnered from genetic work in this field;
3. New possible candidate genes for monogenic and complex forms of HL

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
